NOTES:

Headlining, **Asmodeus** is a psychobilly trio from Holland that mixes demonic metal with rockabilly and country.

Asmodeus recently enjoyed a write-up in Alternative Press' spread on the growing psychobilly subculture in America.

This is the second time for **Asmodeus** performing in the U.S.A. Last Halloween, the band played the **West Coast Wreckers Ball 2** psychobilly festival in Hollywood along with a quick set of dates in Texas. **Asmodeus'** new album "Diabolique Royale" is being released in America by HairBall8 Records/PSYCHOBILLY*US on June 27th. The main support slot for **Asmodeus** is being filled by staple Southern California psychobilly act **Dragstrip Demons**. This Los Angeles based quartet has released two full-length albums on Germany's Crazy Love Records and the **American Nightmare 3** is the very last scheduled performance for this hardcore punkabilly band that recently called it a day. Also on the bill are the loveable, yet deranged San Diego hillbillies known as **Barnyard Ballers**, who are signed to HairBall8Records/PSYCHOBILLY*US. These guys are a filthy bunch of psychobillies known for utilizing risqué stage props and spanking the rear ends of female audience members who join the Ballers on stage. In regards to the sound of **Barnyard Ballers**, imagine Metallica mixed with Hee-Haw. Make sure you also catch Tucson's **Demon City Wreckers**, a street punk/hardcore influenced psychobilly band that is celebrating the release of their brand new album on HairBall8 Records/PSYCHOBILLY*US. Also on the bill are Japan's neo-rockabilly/psychobilly act **The Starlite Wranglers** (who are touring in America for the 4th time starting in late May) along with San Diego psychobilly act **The Formaldehydes** who are signed to HairBall8 and have been garnering some attention lately with their young and hungry approach to psychobilly. **Knock 'Em Stiff** (San Diego), **The Rezurex** (Los Angeles), **The Neo Phonics** (OC) and **Zombillyz** (LA) also promise to deliver a hellacious mix of rockabilly and punk on stage at the **American Nightmare 3**.
